The Institute of Quarrying
Australia

Untapped Resources –

A conference hosted by IQA Women in Quarrying

The IQA is proud to present the WIQ Queensland Conference 2020. The theme, “Untapped Resources” is a rallying call - to **celebrate** the diversity of which we are proud, in an industry of awesome careers. And to **contemplate** how we can harness and optimise the talents and capacity of a diverse workforce.

Ever wonder about the future of our industry? How we keep up with changes in recycling and technology? You'll find these answers and more from our sparkling list of speakers. Our people embrace technology advancements to optimise how we do business every single day. We'll discuss the untapped resources in our industry – our minds, new technologies, or advancements in recycled products and environmental management.

The conference aims to take the ‘un’ out of ‘untapped’ and provide direction in this uncertain world by exploring how to:

- **develop a creative, resilient, inclusive and adaptable workforce**
- **create a safe and inclusive workplace that nurtures diversity, stretches imaginations and unlocks potential**
- **understand the waste stream and implement resource recovery and reuse over disposal - at desks, on sites and across assets**

Through the WIQ network, the IQA has successfully encouraged hundreds of people to participate in networking/ education events for the first time, provided leadership opportunities and profiled amazing career opportunities and leaders in the industry.

We're passionate about developing the careers and personal potential of women and men in the extractive industry! This event provides the opportunity for career boosting learning and networking.

We look forward to welcoming you to this great day!

WHO WILL ATTEND?

The program is designed to motivate and inspire frontline staff, provide real examples and case studies for managers who want to broaden the engagement of staff and showcase achievements of leaders to inspire the next generation. WIQ welcomes men and women at all levels within the quarrying and extractive industries.

ACCOMMODATION

For those travelling, conference accommodation rates at the Glen Hotel are available. To book, please contact the hotel directly on (07) 3270 6666.
