

The Institute of Quarrying  
Australia

# MEMBER BENEFITS

THE EXTRACTIVE & ASSOCIATED INDUSTRIES

**The IQA is a professional body for quarry operators and suppliers throughout Australia. With a strong network of over 1500 members, the IQA provides opportunities for professional development and networking within the quarrying and associated construction industries.**

## EDUCATION

- Discounted registration fees at all IQA education events
- Access to the Quarry Manager Certification System (QMCS)
- Access to online resources including Webinars and Fact Sheets
- Complimentary print subscription to Quarry Magazine
- Access to advice and support for accredited training.

## NETWORKING

- Opportunity to join Branch Committees, contribute to the industry and stay connected professionally
- Discounted registration fees for all branch, conference and industry events
- Engagement with the largest and most diverse group of quarrying professionals and suppliers in Australia and globally.

## PROFESSIONAL RECOGNITION

- Use of IQA digital member badge denoting grade and membership status
- Recognition of your professional membership and grade through post-nominals
- Eligibility to apply for IQA Awards that recognise leading practice and acknowledge personal contributions to the industry.

## ADDITIONAL BENEFITS

- Formal recognition of members who achieve continuous membership with key milestones at 5, 10, 15 and 20 years
- Incentives for the Next Generation of IQA Members aged 16 - 35 to join the IQA and expand networks
- Initiatives and support for Women in Quarrying.

# NATIONAL NETWORKS

THE EXTRACTIVE & ASSOCIATED INDUSTRIES

## WOMEN IN QUARRYING (WIQ)

WIQ focuses on encouraging women in the industry to participate in IQA educational and branch events. WIQ is helping many women take their first step in professional development by promoting networking amongst women and the broader industry.

WIQ has engaged hundreds of women in personal and professional development. By acknowledging and celebrating women's contribution to the extractive industry WIQ is creating the opportunity for anyone in the industry to connect, network and share experiences.

**If you know women who are working in any part of industry encourage them to get involved with WIQ today.**

## ENGAGING YOUNGER PEOPLE

The IQA's Young Member Network (YMN) is assisting the development of younger people in the industry and those just joining the industry. The YMN provides networking, guidance, support, education and an opportunity to develop a successful career within the industry.

Our national network connects like-minded young people who get to know their peers, share ideas and experiences, build key industry contacts and develop new friendships.

**Encourage the next generation of industry professionals to get involved with the YMN today.**
