

Electrical Awareness

Electrical Awareness

WORKSHOP

The IQA is delivering a four hour virtual workshop on Electrical Awareness. The workshop is targeted at Quarry Managers, Quarry Supervisors, Senior managers / staff, H&S Officers. The workshop will provide participants with an understanding of basic electrical principles and the identification of electrical hazards specifically covering:

- Relationship between legislation, standards, guidelines
- Competencies
- Supervision of electrical workers
- Contractor management
- Risk management relating to electrical installations
- Identification of electrical hazards
- Protective devices for electrical circuits
- Areas of high concern

CPD hours: 4 hours - Technical Training. A completion certificate will be issued once finished.

Corporate booking: The IQA can arrange training for a corporate booking. If you would like to book delivery (either face to face or virtually) for your staff, please call the IQA on 02 9484 0577.

Why attend?

There is significant focus on electrical awareness by state regulators. Quarry owners, managers and senior staff should understand their responsibilities and the relationship between legislation, standards, guidelines. The workshop will provide an understanding of the basic electrical principles and how to manage risk relating to electrical installations.

Delivery

Delivery is via virtual training (through a platform such as Zoom). As this workshop is being delivered virtually, all participants must have access to the internet and a laptop / tablet that can run the delivery platform.
